

Seating / Task Chairs

# CH6100W

---

The CH6100W decorates the space gaily. Soft microfiber and solid nylon weave mesh seats ensure a comfortable and refreshing work environment.

# Design & Function

**Synchronized Tilt**  
The back plate and the seat plate incline at different angles to support users.

**Multi-Limited Tilting**  
Selective range of tilting angle depending on body posture.

**Depth adjustment of seat**  
Easy adjustment of front and rear position of seat in accordance with body shape to maintain correct posture.

**Seat cover accessories**  
Depending on the individual's taste or usage conditions, seat cover is available.  
\* Available for purchase

**Adjustable lumbar support**  
Adjustable position of lumbar support according to user's body. (height, depth)

**Height / front / rear adjustable headrest**  
Height and angle are easily adjustable according to body shape and posture change.

**Adjustable Armrest & Urethane Arm Pad**  
Armrests with adjustable height and angle, top-quality urethane molded arm pads that ensure softness and long durability.

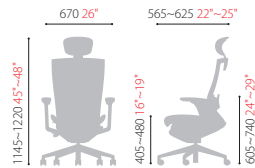

**Mesh material seat**  
Mesh material with open frame structure presents refreshing usage by distributing body pressure evenly on the seat.
