

Seating / Task Chairs

EGA

The unique U-line backrest of the EGA chair, molded in a single piece, provides the shoulder area with three-dimensional freedom of movement through increased torsion and flexibility, while at the same time providing effective support in the lumbar region. The front of the plastic seat shell is shaped in such a way that the cushion can move freely with the body, avoiding pressure points.

Design & Function

Climaflex Backrest

The EGA marks the premiere of climaflex, a unique, state-of-the-art technology that combines flexibility, ventilation and strength. The exclusive ventilating foam and mesh fabric allow excellent air circulation so that the user's back stays always fresh and dry. EGA is designed by an Italian-born designer, Claudio Bellini.

U-shaped Backrest

The unique U-shaped backrest shell adapts to the user, movements are free and comfortable.

Adjustable Headrest

The headrest minimized pressures on your neck with features of height and angle adjustments giving a support to either your neck area or head depending on the angle you set.

Synchronized Tilt

The seat plate and backrest tilt independently in response to natural body movements. The tilt mechanism allows the most suitable movement for you different postures.

Multi Limited Tilt

More advanced than tilt angle locker, this 5-step multi limiter helps control over your maximum levels of tilt angle depending on your preferred working postures.

Adjustable Armrest

The adjustable armrest is height and depth adjustable depending on your physique.

Lumbar Support

Together with the well-proportionate line backrest, the optional lumbar support gives more effective and sophisticated support to your lumbar.

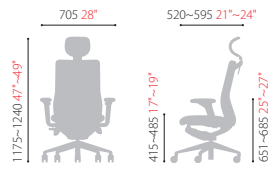

Item List

EGA series

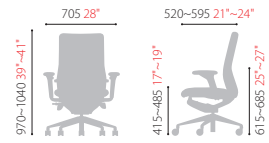

CH4400AHZ

- Climaflex Backrest
- Synchronized Tilt
- Multi Limited Tilt
- Easy Tilt Tension Adjustment
- Height Adjustable Pneumatic Cylinder
- Adjustable Headrest
- Adjustable Lumbar Support
- Adjustable Armrest
- Adjustable Seat Depth
