

CONFERENCE SYSTEM / CONFERENCE CHAIR

P3

The P3 series are uncomplicated and modern. The curvy lines and tilting seatback offer optimal seat comfort. The P3 chairs are slim and lightweight for easy handling and stacking, and they are well-suited for a wide range of settings, including conference rooms and classrooms.

1. A rubber spacer provides the best flexibility in using the plastic shell, frame and elasticity of a rubber.
2. Felt glides can minimize noise by rubbing with the floor.
3. The stationary glide and mobile caster types are both available.
4. The seat pan folds up and the crossed legs collapse, flattening the chairs for stacking one on top of the others.
