FX-I

FURSYS NEXT GENERATION

FURSYS Next Generation (FX-I) office series is based on minimalist design concepts. It is a complete customizable workstation with everything from desk surfaces, panels and storage units to accessories that provides style, space and work efficiency.

FX-I series allows you to create a simply smart work environment that will not only inspire and motivate success, but also satisfy your personal and professional needs.

Doing your job just got easier and more enjoyable.

Flexibility of **Panel**

Our complete panel system can be customized to meet your office needs. Choose from a variety of options, such as panel heights, storage units, office accessories and color. Create the perfect ambiance for your workplace by choosing the right colored fabric-from lively, vibrant colors to sophisticated, subdued tones. The panels fully accommodate all power and communication cables for mess-free wiring and unrestricted use of space.

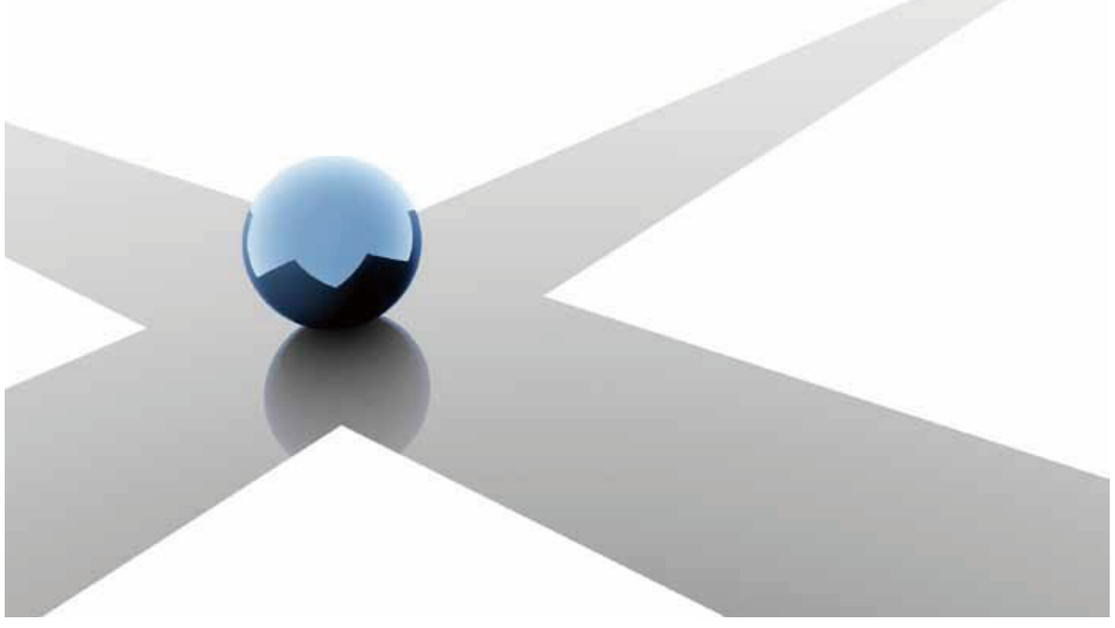
Variety of **Desk Sets**

Design versatility allows quick and easy changes to desk sets based on office need, space availability, and individual preferences. Combine separate units to create the best workspace layout and work environment to steer communication flow and work efficiency.

Simply Smart **Office System**

Create your own **unique space**

Strategic space reconfiguration, optimal storage, assortment of colors, essential functions.
FX-I series is an innovative office solution that can be customized according to your office needs. Create your very own Simply Smart space with the FX-I series.



Minimalist **Design Concept**

No bells and whistles, just essential functions

Desks are simplified and panels are made slimmer. Messy cables are out of sight with discreet cable ducts.
We've even removed the handles!

Assortment of **Colors**

Find your focal color

Choose the color and design that make a statement.
With our wide selection of colors to choose from, you can create a lively and vibrant or sophisticated and relaxed ambience, whichever fits your mood.

The Possibilities

Pick the perfect layout

Be creative with the available options. Play with different combination of panels, storage units, magnetic screens and sliding door. Whether your office requires privacy or open communication, the FX-I series provides flexibility.

Array of Storage Units with **Multiple Uses**

More than just storage space

Storage units come in various types and sizes - top storage, bottom storage, side storage and wardrobes. Our storage units maximize storage efficiency in minimized space while also serving as space dividers.

Layout : Side by side

Panel **Details**

An assortment of color fabric panels allows personal color choice to create a unique, stylish environment.
Panels can also be used as space dividers and have cable management function for tidy, efficient office layout.

Hanging shelf

Attachable open shelf can be hung from any panel.
Store frequently used books and files for easy access.

Hanging cabinet

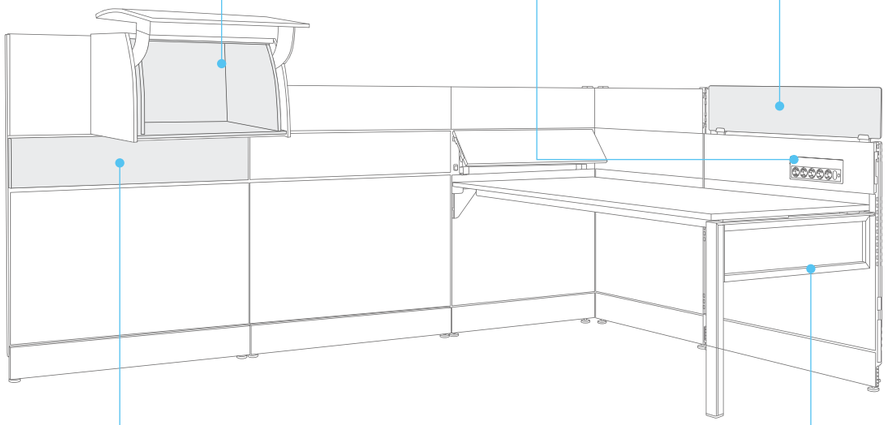
Attachable cabinet can be hung from any panel.
A curved door design creates a smooth look and hides away your books and files.

Convenient external extension cord

If the power plug requires frequent detachment, external extension cord should be used. When the external type wall socket is selected, modular plate accommodating data line is provided as well.

Translucent top screen

Translucent top screen provides coverage without restricting communication flow or range of vision. A seamless bracket design provides an elegant look.



Assortment of colored fabric panels

Choose from a range of color fabric panels to transform your office into a fun and vibrant or a relaxed and soothing place to work.

Countertop

Countertop may be attached to the top of a panel to be used as a reception desk.

Slim frames with a smooth finish

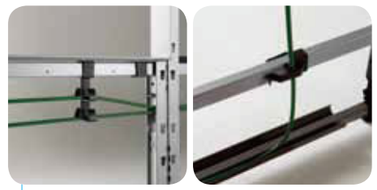
End cover over strong, slim steel-frame edges provides a stylish look that is slick and smooth.

Supportive desk legs

Supportive desk legs provide strong support for hanging desktops.
For cost-effectiveness, one supportive leg can support two connected desktops at once.

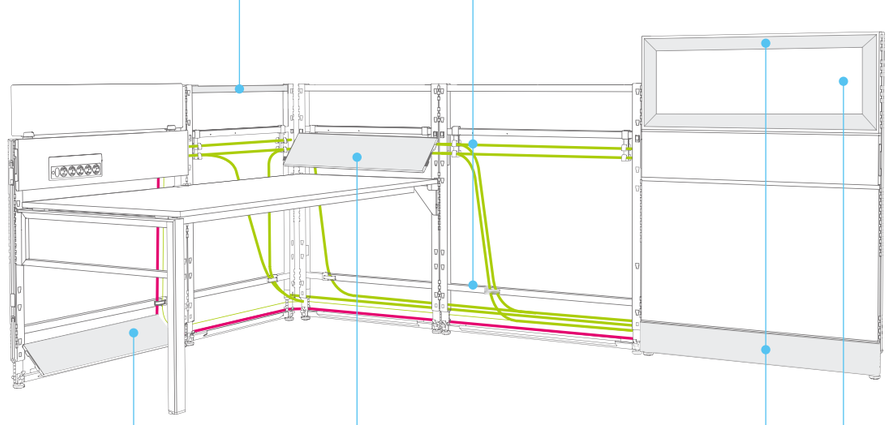
Stackable frame

Adjust panel height by stacking 200 mm high frames together. The flexibility of panel height allows for more or less privacy as required.



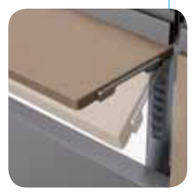
Vertical & horizontal cable holders

Cable ducts and holders built inside of panels allow for tidy, convenient cable management.



Hidden space for cable management

Bottom tile of panel has built-in space to conceal cables. Cables can be attached easily to the inside caps for neat cable storage.



Smart belt tile

Open tile covers at 120 degrees for better view of wire conduits and allow two-hand work during wire installations.

Bottom tile and panel with a smooth fit

Bottom tile and panel fit together smoothly, with minimal visibility of joints.

Translucent stackable panel

Place a translucent stackable panel on top of general panels to add coverage without obstructing the view.

Desk Set **Details**

FX-I series desks are smartly designed with cable management. Available in a variety of colors and designs, create the perfect style for your office. The diverse combination of storage units not only maximizes storage efficiency, but also serves as space dividers.

Screen shields both top and bottom of desk

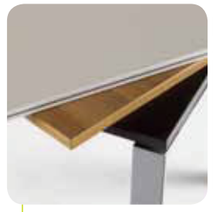
The desk screen provides privacy on the top and bottom of the desk surface. The slim design, with fabric finish, creates an attractive appeal. The magnetic screens allow for posting of memos and photos.

Top storage units in a variety of colored panels

The magnetic top storage units serve a double function as storage and space divider. Units are available in an assortment of color fabric panels.

External cable toolkit

Power strip includes power sockets and internet port for efficient management of electrical and LAN cables.



Choice of colors for desk surface and desk modesty panel

Desk surface and desk modesty panels are available in solid white (WW) and two wood-grain (UA, SWM) finishes. Solid white desk surface has a silver-lined edge for a sophisticated look.

Handless door

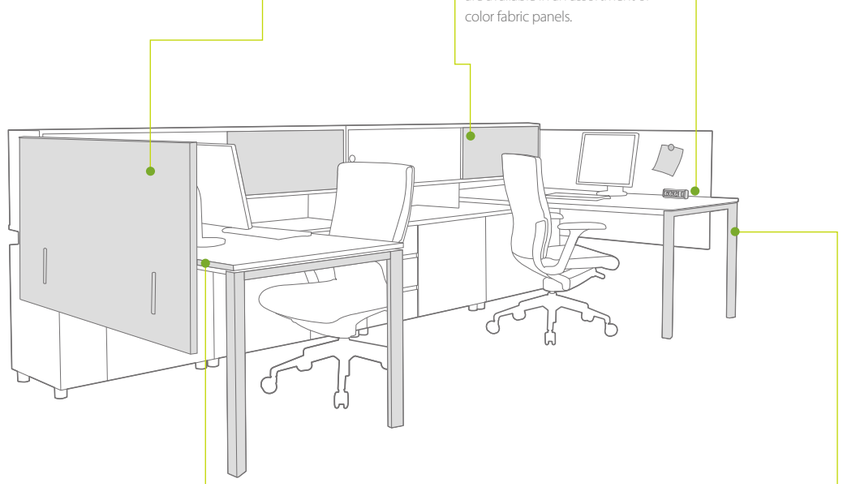
Handless storage units without protruding handles create a seamless look. Horizontal lines on doors and drawers provide additional style.

Additional Seating

Seating pad can be added to a side storage unit to act as a seat, useful when additional seating is needed. Open seating promotes communication and interaction.

Slim leg design

Slim, silver legs provide a tasteful modern look. Corners are designed to create a stylish appearance.



Sensual design (Manager Unit)

Front modesty panel shares same color with the desktop and helps to bring out sophisticated and stylish design.

Desk top wire cover (Manager Unit)

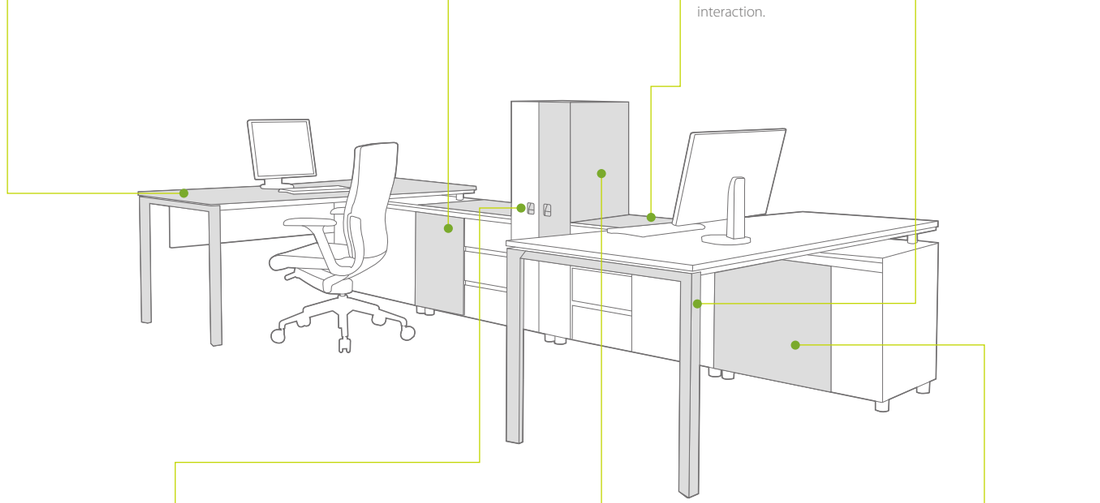
Wire cover located on both sides of the desk top helps to organize complicated wires and blends in style with the silver-colored table legs.

Push-open cable duct cap

Cable duct fits both cables and plugs. Attached push-open type cap allows for tidy and convenient cable management.

Cable net & transparent cable clips

Attached to the lower surface of the desktop, cable net is made from flexible material for maximum cable storage. Transparent cable clips are attached to the desk legs.



Multiple Lock System

Key locks now feature an open/lock status display. For additional convenience and security, key locks may be replaced with Easy Lock System (ELS). ELS is available in either fingerprint or number-combination lock with LED lighting.

Tall storage units for maximum space

Choose from three separate tall units - wardrobe, 3-level or multi cabinet. Maximize space efficiency by adding accessories, such as mirrors, boxes and nets.

Easy-to-use PC cabinet

CPU holder is attached to the inside of PC cabinet door for quick access and ease of computer usage. Open ventilation and cable ducts allow for proper storage.

Planning Tip / Layout

Customize the FX-I series to create your own office module

By adding storage units and desk surfaces, the FX-I series allows you to create the perfect office module that is customized to your task requirements. A variety of panel heights and screens also allows you to structure your office layout to achieve the appropriate balance of privacy and office interaction.

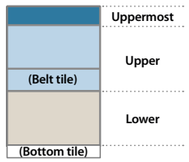
Color Set Code Principle

1.

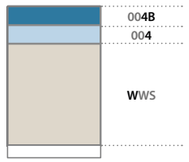


Full panel is divided horizontally into 3 groups.

- Uppermost tile (H 200 standard type)
- Upper tile (including belt tile)
- Lower tile (from below the belt tile to above the bottom tile)

• Double-sided standard tile

2.

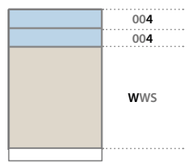


W (Lower) 4 (Upper) 4B (Uppermost)

Reads Lower-Upper-Uppermost

• Double-sided standard tile

3.

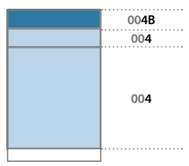


W (Lower) 4 (Upper / Uppermost)

In case where Upper and Uppermost tile colors are the same, this color should be read only once.

• Double-sided standard tile

4.

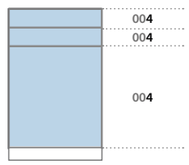


4 (Lower) 4 (Upper) 4B (Uppermost)

When the colors of Lower and Upper tiles are same, they should be read separately from the Bottom.

• Double-sided standard tile

5.

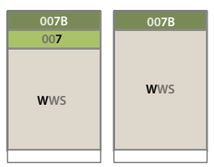


4 (Lower / Upper / Uppermost)

When all the colors are the same, it should be only read once.

• Signle-sided stantard tile / Single-sided mono tile

6.



W (Lower) 7 (Upper) 7B (Uppermost)

If each side of the tile numbers are different, color code should be read from the side with more color.
