SIDIZ

A CHAIR  
TRANSFORMING  
YOUR LIFE  
THE CHAIR  
DREAMING OF  
MORE THAN A CHAIR

Sidiz, a chair brand, aspires to support your passionate life on chairs that define your body and space, through which you can immerse in life as a HOMO SEDENS (Seating Human). Professionalism of chair designers and engineers at the Sidiz R&D center has been building up a solid foundation to make this sincere aspiration into the promise of good and affordable chairs. Combined with cutting-edge ergonomic technologies supporting human movements to the maximum level of comfort, our smart and creative designs imbue a stronger value to your life. Determined to manufacture only the highest quality products, our uncompromising spirit of craftsmanship manifests itself in the final touches on details. Sidiz' passion for chairs your body and your lifestyle now extends towards the universal availability for global customer seeking for the higher quality in life.

## Move, Respond and Follow Along With Your Body Communication with human - T55

Sit on a chair for long, and you would yearn for nothing more than a chair fits into your body so well that it 'Follows along with your body'. The T55 series are chairs designed to offer the optimum comfort and support with the backrest and the seating area according to your body movements – all thanks to the 'Slide & Sync system'.  
Chairs that follow your body movements – The T55 series are the chairs you have all been waiting for.

### Slide & Sync

All according to the user's movements, the backrest sliding and the curve below the backrest are protruded as a genuine lumbar support as if to synchronize the body and the chair in the optimum comfort.

### Sliding Headrest

Automatic sliding is enabled up to the headrest according to the backrest's movements. So, the user can lean back with the sliding headrest adjusted in any posture.

### Synchronized Tilting

The maximum seating comfort is offered as the backrest and the seating area are designed to move in different angles depending on the extent of synchronized tilting.

## Fill Up Your Space with a Simple Square Frame Design of T55 and your space

The T55 series with minimized decorations or frills based on the harmony of the modern square frame and the square line offers the visual charms as well as the body comfort. The double layers that seamlessly fill up the organically changing body movements move along with backrest, and also offer such a neat side view.

Six colors that cover a wide coloration in a vivid and lively ambience – red, yellow, green, blue, black and gray – imbue the vitality depending on the color of your own. The chairs that epitomize your own style - they are the T55 series.

## The Chair of Your Choice **Experience the Difference**

### Let Your Body Breathe With a Double Layer Raschel Fabric **T55 Double Raschel**

Double Raschel, a new roll-out of the T55 Series, touts an even firmer material with the double-layered mesh. The best comfort and stability your can ever think of is all yours with double elasticity. Enjoy the pleasant comfort as the air between the double layers freely comes in and out. The chair delivers a double surprise at what you see and what your body feels.

#### **Features of Double Raschel**

A double layer raschel fabric (Double Raschel) offers the pleasant feel of mesh along with firmer durability and higher elasticity. T55 Double Raschel's texture also provides luxurious and prestigious look.

### Its Charisma Softens the Whole Body **T55 Leather**

T55 Series is available in premium genuine leather, which provides soft touch and immaculate comfort. The natural feel of the quality leather will deepen over time. Why not relish T55 with premium genuine leather?

#### **Features of the Genuine Leather**

T55 Series, with the pores of the highest premium genuine leather made in Korea, tout excellent heat-insulation, moisture and ventilation effects. As the surface temperature of the leather changes according to the indoor temperature, it provides optimum comfort for the body. Product lifespan is much longer, thanks to the materials' outstanding durability and hygiene.

## Basic type and optional features

T55 series offers a full range of variations according to your life style, preference, and needs.

**Sliding adjustable headrest :** The center of the headrest slides along the rail connected to the sliding backrest while the height and the angle of the headrest are adjustable. So, no matter how long you sit, and no matter what posture you take, the sliding adjustable headrest supports your head in the utmost comfort.

**Adjustable armrests :** The adjustable armrest is height and depth adjustable depending on your physique. The armpad is made of TPU (Thermal Polyurethane), a non-irritating, recyclable material. TPU is also puffy and soft to the touch.

**Base :** The base comes in two types : Aluminum and plastics. A highly sophisticated ambience is generated by the aluminum polished base depending on the chair usage and space.

**Casters :** Casters come in two types : Polyurethane casters are soft and suitable for cement or wooden floors, and nylon casters are suitable for carpet floors.

**Leather finish :** For more elegant look of T55, an option of Italian genuine leather finish on the seating is available. For design consistency in the finish material, this option specifies also the same natural leather finishes on the armpad and the neckrest. For different finishes on the armrest and the neckrest other than the natural leather matching the seating, alternatives like artificial leather are available only through the customization procedure with the signed-off acceptance of any color deviation.

**Double Raschel Finish :** A double layer raschel fabric (Double Rashcel) offers the pleasant feel of mesh along with firmer durability and higher elasticity. Not only that, T55 Double Raschel's hexagonal design looking firm and yet haute will give you a higher prestige.

## Quick reference of variations

### T55 swivel task chair basic & standard features : T550DU

- Slide & Sync system  
(Sliding backrest & lumbar support)
- Adjustable(depth) seat plate
- Height adjustable pneumatic cylinder
- Engineered plastic base
- Polyurethane casters
- Synchronized tilting mechanism
- Multi-limited tilting mechanism

### T550DAU with adjustable armrests on the basic type

- Slide & Sync system  
(Sliding backrest & lumbar support)
- Adjustable(depth) seat plate
- Height adjustable pneumatic cylinder
- Engineered plastic base
- Polyurethane casters
- Synchronized tilting mechanism
- Multi-limited tilting mechanism
- Adjustable Armrests

## Slide & Sync System

This innovative, double-layer structure mechanism allows the backrest to slide naturally according to the user's seating movements. This smooth movement minimizes the friction between the user's back and the backrest, fills the empty spaces around the lumbar, and allows 3D movements that truly synchronize the human body and the chair.

**T550HDAU**  
with adjustable armrests and headrest on the basic type

- Slide & Sync system (Sliding backrest & lumbar support)
- Adjustable(depth) seat plate
- Height adjustable pneumatic cylinder
- Engineered plastic base
- Polyurethane casters
- Synchronized tilting mechanism
- Multi-limited tilting mechanism
- Adjustable Armrests
- Adjustable Headrest

**T550HDASU\_L096**  
finished with luxury upholstery on T550HDASU

- Slide & Sync system (Sliding backrest & lumbar support)
- Adjustable(depth) seat plate
- Height adjustable pneumatic cylinder
- Polished aluminum base
- Polished aluminum arm frame
- Polyurethane casters
- Synchronized tilting mechanism
- Multi-limited tilting mechanism
- Adjustable Armrests
- Adjustable Headrest
- Genuine leather

## Attention to details and Design award

### 1 | 2. Adjustable Headrest (Optional)

The height and upper/lower angles of the headrest can be adjusted depending on your physique.

### 3. Adjustable Seat Depth

By pulling out the lever under the seat, you may adjust the depth of your seating to fit your thing size.

### 4. Synchronized Tilting

The "Synchronized Tilting" mechanism allows separate tilting of backrest and seating area at different angles, and allows the most suitable movement for you different postures.

### 5 | 6 | 7. Adjustable Armrest, TPU Armpad (Optional)

The adjustable armrest is height and depth adjustable depending on your physique. The armpad is made of TPU (Thermal Polyurethane), a non-irritating, recyclable material. TPU is also puffy and soft to the touch.

### 8. 5-Step Tilting Angle Limiter

More advanced than tilting angle locker, this 5-step multi limiter helps control over your maximum levels of tilting angle depending on your preferred working postures.

### 9 | 10. Height Adjustable Pneumatic Cylinder

The right-side flat-shaped level below the seating area can be pulled to adjust and minimize the height of the chair to suit your physique.

### 11. Easy Tilting Tension Adjustment

Depending on your body weight and preference, you may easily adjust the tension of your tilting movement by turning the lever clock/anti-clockwise under the seat to an appropriate level.

### 12. Polyurethane Casters

The polyurethane-based casters reduce the chair noise while rotating or moving, and minimize the floor scratches.

### 13. Double Raschel

A double layer raschel fabric (Double Raschel) offers the pleasant feeling of mesh with long durability and higher elasticity.

### 14. Genuine Leather Finishes

An option of italian genuine leather finish on the neckrest, seating and backrest is available.

### 15. Polished Aluminum Base

The die-casted aluminum base and armframes in polished aluminum create T55 luxurier and sturdier.

\* All features are subject to change.

## Design Award International design excellence awards finalist

Sidiz's T55 Series, with its innovative "Slide & Sync System" mechanism and other ergonomic design features, was designated as a finalist of IDEA (International Design Excellence Awards), one of the world's most prestigious design awards. For the first time as a Korean furniture brand, Sidiz was awarded at the IDEA and was able to showcase its quality in design. Sidiz continues to receive highest acclaims internationally with its innovative technology and forward-looking style.
